WHAT'S POPPING IN JULY?

ON THE ENTERTAINMENT SCENE:

- While most **SFF12** and **Depth** social conversation was driven by media outlets and paid posts rather than organic audience voice, titles like **Qesma w Naseeb** and **The Rest is Football** surfaced genuine unprompted audience engagement making them the more reliable signal for what Saudi audiences are actually watching and talking about.

ON THE TITLES FRONT:

- **Underage**, **Banat Omair**, and **Love in Slow Motion** stole the spotlight this month, **emerging as the most talked-about titles**. **All three were met with predominantly positive sentiment**, with **Underage** leading the conversation and generating the highest volume of mentions.

ON THE STREAMING SERVICES LEVEL:

- Yango Play continued to have less than normal conversations due to the lack of originals
- Netflix's Korean titles continued to drive strong audience engagement, particularly **Agent Kim Reactivated** and **The East Palace**, while returning titles such as **Friends** generated positive reactions and renewed interest in the platform's content library.

SEASON 5

The Format Itself is Causing Controversy

A recurring critique thread frames the show's core Criticism; mothers vetting and choosing brides for their sons as regressive, distinct from simple show criticism. This is a structural, not incidental, objection.

REPRESENTATIVE VOICE

”ايش فكرة برنامج قسمة ونصيب جاييين امهات يقيمون في البنات و يختارون لأولادهم! وكل بنت تعرض نفسها وتذكر مواصفاتها و الذكر و أمه ينتقون قمة الالهانة للمرأة”

”What’s the idea of this show bringing mothers to judge the girls and choose for their sons! Each girl presents herself and lists her qualities, and the guy and his mother pick; the ultimate insult to women.”

STRATEGIC READ

Netflix’s own matchmaking IP (Love Is Blind, Down for Love) is built on contestant agency and choice. This regional format inverts that family authority over individual choice which is the second theme creating controversy

Four peaks. *Four moments* the audience showed up.

What drove the four peaks

16 Jul · 253 posts: Maya Al-Ghamdi *proves live on-air* that she is Saudi and from the Ghamdi tribe.

13 Jul · 189 posts: the “not really Saudi” accusation goes viral, before Maya’s live reply.

24 Jul · 234 posts: episode reactions + a follow-up Maya storyline reach.

21 Jul · 160 posts: Maya’s second on-camera meeting with Syrian contestant Wael.

What Are The Key Learnings from “TRIP”

- Audiences recognised a missing regional format. **“The ex-football legends in a casual set up”**
- **“Timeliness & Relevance”** The show being aired in World Cup & discussing different matches not just European matches, gave the title better exposure & acceptance in MENA
- Football fans do watch content aside from the matches themselves & it's a great opportunity for the brand to further leverage on its existing relevance.
- For the future, events like World Cup can be used to push global events-related content

DEPTH

THE BAR IS SET HIGH, BUT BY THE WRONG COUNTRY

HIGHEST **ENGAGING** POST

The Saudi documentary (Depth) began its theatrical run this week, becoming the second Saudi documentary to secure a commercial release following **The Blue Spirit**. Its arrival raises a significant question: **Can Saudi documentaries carve out a place for themselves at the box office?**

The initial Saudi venture **The Blue Spirit** failed to draw significant audiences while the Iraqi documentary **Hiding Saddam Hussein** that was released in the cinema, attracted lots of box office success; nearing the 100,000-ticket mark in Saudi cinemas. Will **Depth** succeed in writing a new chapter?

THE BENCHMARK THAT HANGS OVER DEPTH ISN'T A SAUDI FILM IT'S AN IRAQI ONE. HIDING SADDAM HUSSEIN SOLD APPROXIMATELY 100,000 TICKETS IN SAUDI CINEMAS PROVING THAT ARABIC-LANGUAGE DOCUMENTARY CAN WORK THEATRICALY AT SCALE. BUT THAT RECORD BELONGS TO A STORY ABOUT AN IRAQI DICTATOR, NOT A SAUDI ONE. EVERY SAUDI DOCUMENTARY SINCE, INCLUDING BLUE SPIRIT BEFORE DEPTH, HAS BEEN MEASURED AGAINST A CEILING IT DIDN'T SET AND HASN'T REACHED. THAT'S THE STAKES AUDIENCES ARE READING INTO DEPTH'S RELEASE NOT "IS THIS A GOOD FILM," BUT **"IS THIS THE ONE THAT FINALLY CLAIMS IT."**

✓ POSITIVE ASPECTS

BEYOND THE PREMIERE: THE BUZZ CONTINUED

- The series sustained audience interest beyond its release, with **viewers expressing excitement for upcoming episodes** and actively following the unfolding storyline.

A FINALE THAT TIED IT ALL TOGETHER

- The series ended on a high note, with **viewers applauding the finale for delivering satisfying answers and a well-paced conclusion** that avoided unnecessary filler. While the ending won over most audiences, a small group of viewers drew comparisons to AlRawabi School for Girls.

A BINGE-WORTHY WATCH

- One viewer remarked that the series **"held their attention for four hours straight,"** highlighting its ability to keep audiences engaged from start to finish.

✗ NEGATIVE ASPECTS

TOO CLOSE TO REALITY... OR TOO FAR FROM IT?

- The series sparked widespread discussion for its portrayal of **sensitive issues including drugs, peer pressure, bullying, pregnancy scares, and teenage behavior**. While many viewers praised its bold approach to tackling these topics, others questioned whether its depiction of Egyptian high school life was realistic and representative of local culture.

GENERATIONAL REFLECTION: "WHO'S REALLY THE UNDERAGE?"

- Some users joked that the **emotional twists and constant surprises made them feel "underage,"** using the title humorously to describe how overwhelmed they felt while watching the series.

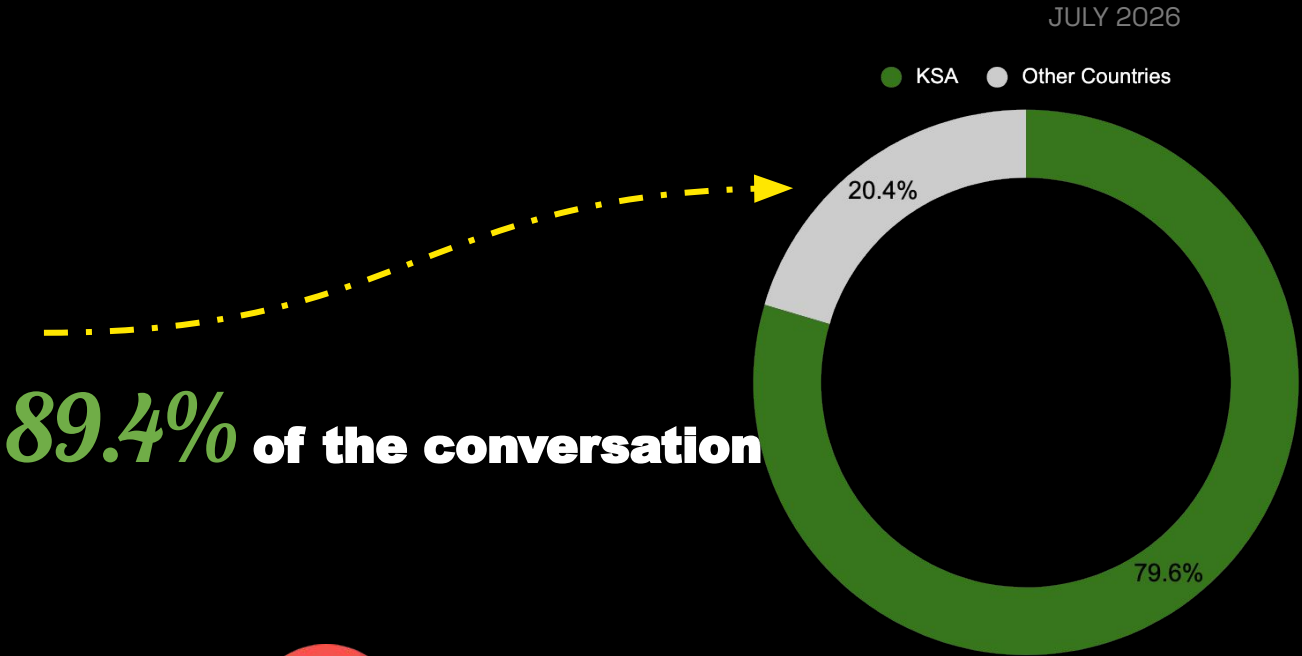

Release date: 26th of July

BANAT OMAIR

mbc

294 CONVERSATIONS

It wasn't the loudest title of the month, but it certainly won over its audience reflected a positive sentiment.

✓

POSITIVE ASPECTS

A STORY THAT KEEPS VIEWERS WATCHING

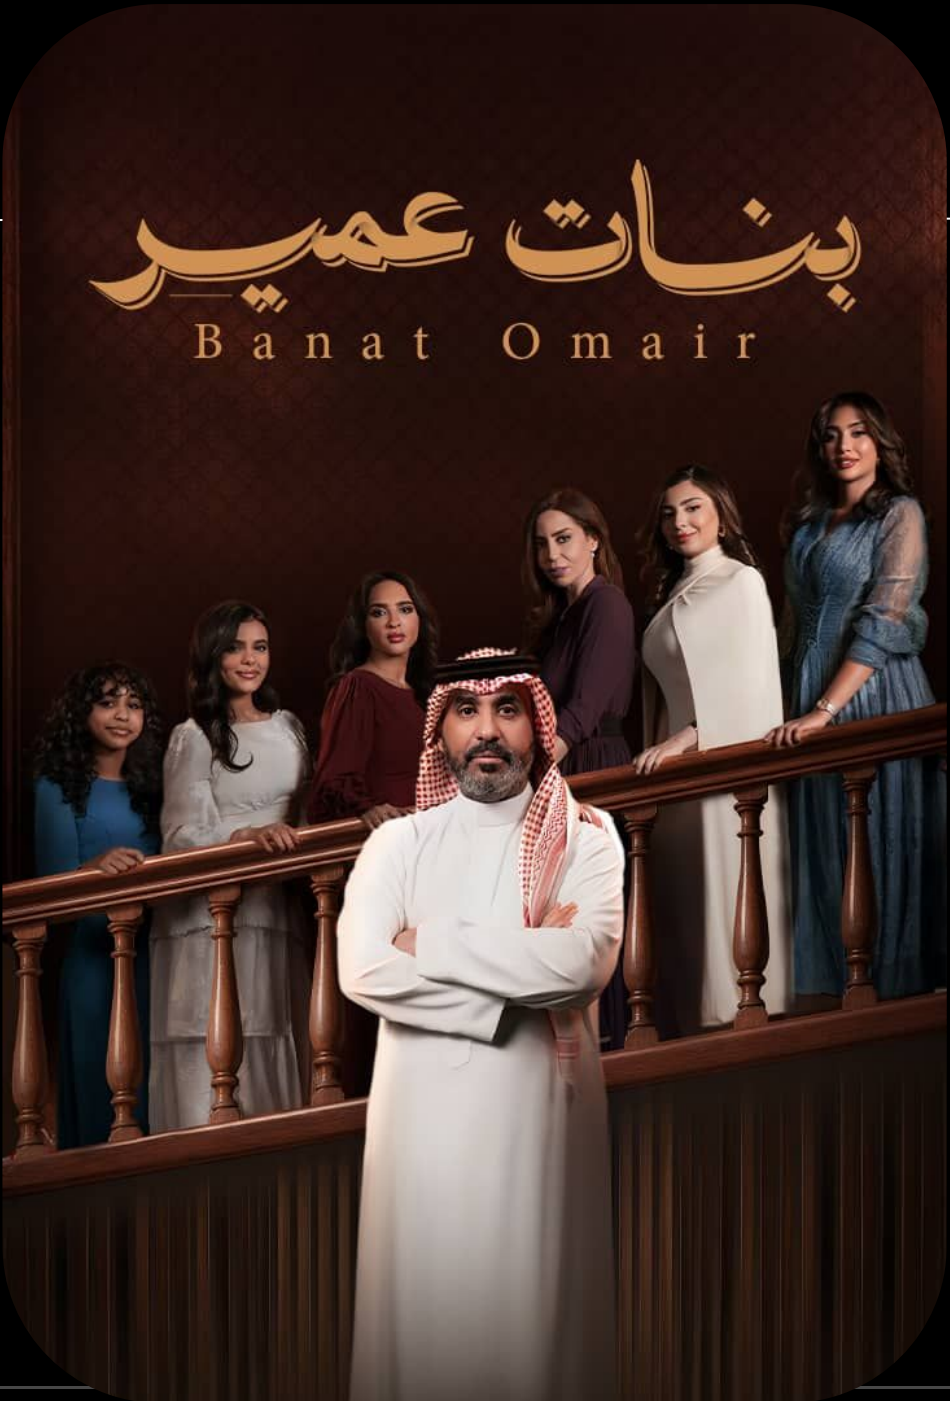

- Many viewers described Banat Omaid as a **light enjoyable** watch, praising its **engaging storyline** and fast-paced rhythm that kept the plot moving without feeling stretched or repetitive.

FRESH FACES, BIG PRAISE

- One of the most widely shared posts **applauded producer Hassan Assiri** for featuring young talent, with viewers celebrating the fresh cast, their performances, and the title's well-paced storytelling.

RELATABLE FAMILY MOMENTS

- The **family dynamics** resonated with some audiences, particularly the interactions between the father and his daughters, which many found familiar and reflective of everyday family relationships.

✗

NEGATIVE ASPECTS

LOOKING FOR MORE DEPTH

- A **very few number of** viewers criticized the **direction**, suggesting that the **title events lacked depth** and directing their criticism toward the director and producer for not fully realizing the series' potential.

CULTURAL RELEVANCE & INCLUSION UNDER THE MICROSCOPE

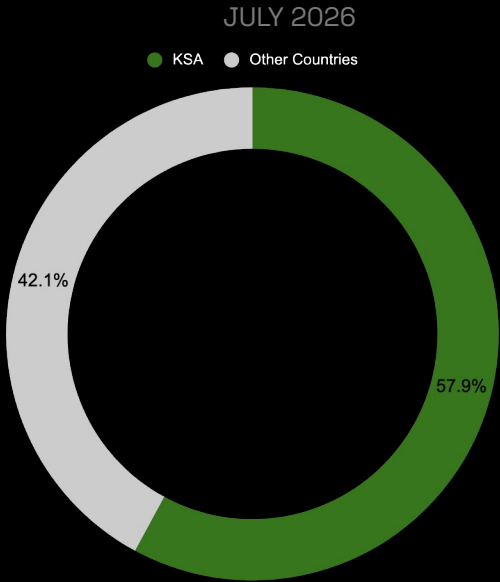

- Some viewers questioned the cultural authenticity of the series**, arguing that certain character portrayals and social interactions did not accurately reflect the community the story represents. Examples included the absence of niqabs among characters and scenes of girls socializing with boys in cafés, which some felt were unrealistic.
- However, these criticisms were largely directed at the title's portrayal rather than at producer Hassan Assiri personally.** Unlike his previous productions, particularly Hay Al Jaradiyah, which faced significant criticism during the previous Ramadan season, Banat Omaid did not generate the same level of direct backlash toward Assiri regarding the storyline or its cultural representation.

Release date: 23rd of July

✗ NEGATIVE ASPECTS

THE THEME SONG DIVIDED OPINIONS
